- Axamer Lizum (AUT)
- Hinterstoder (AUT)
- Sillian (AUT)
- Seefeld (AUT) - Air & Style

Mellow Constructions started off as a pure freestyle facility building company, with former snowboard professional Tommi "Mellow" Marsh constructing the set up of the famous Air & Style contest in Innsbruck. At the same time we began to build snowparks and organize events for winter sport resorts in Austria, Switzerland and Germany. Meanwhile Mellow has established itself as one of the top players in the full service snowpark industry. Besides planning and construction of snowparks we offer park tools, content production, communication services, events and on mountain advertising. Mellow is a team of specialists which members are active snowboarders! That's what we are... Mellow
